

Get in on the action!

TCR UK

TOURING CAR CHAMPIONSHIP 

Launched in 2014, the TCR concept was introduced to level-up touring car racing on a global scale. Featuring production saloons powered by 1.75 – 2-litre turbocharged engines, cars are built by manufacturer-approved constructors to comply with carefully controlled technical regulations and FIA homologation.

Such has been its success, TCR racing now takes place in more than 30 different countries. The concept was introduced in the UK in 2018 and in 2021 under new administration, firmly established itself as the competitive, high-profile national championship that it deserves to be. In doing so, it has attracted top teams, talented drivers and more spectators than other race series of a similar status.

Building on the achievements of the past season, 2022 will see TCR UK continue its upwards trajectory to provide even more benefits for teams and drivers, featuring a calendar of events at many of the UK's leading circuits, greater levels of PR and public exposure, bigger grids and closer racing.

Don't miss out!

Join the fastest-growing, most accessible, national multi-marque championship in the UK

What's in store for 2022...

Events and opportunities

- 15 rounds at seven meetings
- 20 and 25-minute races
- Rapidly-increasing public engagement
- Greater spectator attendance than other events of similar status
- Supporting shows organised at many of the meetings
- TV coverage and online presence
- Hospitality and corporate opportunities
- Pre-event testing

Cars

- Built to homologated global TCR regulations
- Balance of performance ensures competitive - and fair - racing
- TCR concept underpins residual values
- Manufacturer appointed suppliers enable excellent parts availability and accessible technical support
- Proven reliability and component life
- Controlled tyres and fuel with on-event support
- Comparatively low running costs
- Value for money motorsport
