SMD30LR

Low Vibration Die Grinder

SMD30LR Low Vibration Die Grinder

- ATA has designed and developed a die grinder which improves operator comfort not only with its weight reduction but also with the inclusion of a vibration dampening technology, which reduces process and consumable vibration.
- The new moulded body design offers the operator improved ergonomics as well as insulation reducing the exposure to cold.
- The SMD30LR offers versatility designed to suit medium to heavy deburring applications across many industries such as railways, shipyards and foundries.

NEW MOTOR DESIGN

resulting in greater
power to weight ratio

REAR EXHAUST

reduces noise exposure
to the operator

MOULDED BODY

providing greater
insulation and improved
ergonomics
